THOMAS THORNELY, Esq., M.P. ..	THE COUNCIL.

For Auditor,

SAMUEL SHARPE, Esq.....	ISAAC NICHOLSON, Esq. THOMAS COPE, Esq.

The Report of the Council was read by the Secretary.

The Report of the Auditors, containing the Balance Sheet and the Statement of Receipts and Expenditure for the year 1841–42, and other Financial Papers, *vide* pages 10, 11, 12, were read.

On the motion of Mr. Wood, seconded by General Alexander,

Resolved,—That the Report be received, and that it be printed and circulated among the Proprietors.

The Return of the Scrutineers was presented to the Chairman, who declared the result of the ballot to be as follows:—

For President . . . . . Lord Brougham.

For Vice-President . . The Earl of Auckland.

For Treasurer . . . . . John Taylor, Esq., F.R.S.

For Councillors.

General Alexander.	James Heywood, Esq.

G. B. Greenough, Esq.	Thomas Thornely, Esq., M.P.

For Auditor, Samuel Sharpe, Esq.

On the motion of the Hon. Col. Leicester Stanhope, seconded by Mr. Booth,

Resolved unanimously,—That this Meeting do express the sense which they, and they are convinced, the collective corporate body feel, of the eminent services rendered to the College by His Grace the Duke of Somerset, of whose retirement from the office of Vice-President they have heard with much regret.

On the motion of Mr. Richard Taylor, seconded by Mr. Hardwick,

Resolved unanimously,—That the thanks of this Meeting be given to George Bellas Greenough, Esq., for the generous offer he has made to the College of his valuable collection illustrative of Geology, and that he be informed of their regret that the state of the finances of the College has not justified the Council in accepting his offer.

On the motion of Mr. Wilks, seconded by Mr. Watson,

Resolved,—That the thanks of the Meeting are due to the President, Vice-President and Council, and also to the Professors of the College, for the attention and ability with which they have discharged their respective duties during the past year.

H. C. Robinson, *Chairman.*

General Alexander took the Chair.

On the motion of Col. Stanhope, seconded by Mr. Bromley,

Resolved,—That the thanks of the Meeting be given to Mr. Robinson for the justice and ability with which he has presided over the business of the day.

REPORT.

FINANCES.

IN the Session of 1841–42 the number of Pupils in the College and Junior School was 916. The Students in Arts and Laws were 183, of whom 16 attended exclusively the Law Classes, and 29 the Classes for Schoolmasters of the Patriot Endowment Fund; 338 were Students in Medicine; and 395 Pupils of the Junior School. The largest number of boys in the School in any single term was 336.

The amount of receipts from Students and Pupils was 12,756*l.* 4*s.* 6*d.*, of which sum 9081*l.* 1*s.* 8*d.* having been paid to Professors and Masters, 3675*l.* 2*s.* 10*d.* fell to the share of the College. Adding to the College portion 130*l.* 4*s.* 4*d.* profit from the temporary investment of the Fee Fund in Exchequer Bills, 65*l.* Instalments on Shares, and other Casual Receipts amounting together to 169*l.* 4*s.* 2*d.*, the year's income of the Establishment Department of the College was 4039*l.* 11*s.* 4*d.* The disbursements, including payments for several permanent additions to the property of the College, Interest on Mortgage, and other extraordinary purposes, were 4000*l.* 17*s.* 11*d.*; thus the expenses of the year were covered by the receipts.

Of the sum of 12,756*l.* 4*s.* 6*d.* received as above-mentioned for education, 5574*l.* 10*s.* was derived from the Classes of the Medical Faculty, and 2566*l.* 14*s.* 6*d.* from those of the Faculty of Arts and Laws. The increase above the amount of fees of the preceding Session was 334*l.* 9*s.* 6*d.* in the latter, and 864*l.* 5*s.* in the former department. The Junior School produced 4615*l.*, which was less by 282*l.* 19*s.* 5*d.* than the year before.

The prospects of the present Session are not equally favourable: the Medical Classes have partaken of the depression which has this year affected the Medical Schools generally; but, compared with other Schools, they contain their usual relative proportion of Students. The entries to the present time are 293; and of these, 86 are new Students: the fees amount to 3737*l.* 10*s.*

In the Classes of the Faculty of Arts there has been a falling off, the total number of entries being no greater than it was at this time last year, notwithstanding the formation of a Class of Architecture, which contains 22 Special Students: the number of Students is 155, of whom 65 are in their first year: the amount of fees is 2318*l.* 10*s.* The Class of Schoolmasters at this time numbers 36.

There are 296 pupils in the Junior School this term. At the corresponding period of last year the number was 298.

HOSPITAL.

The sum received from Pupils as fees for attendance on Hospital Practice during the Session 1841–42, and paid over to the House Committee of the Hospital for the charitable purposes of that establishment, was 3119*l.*: the number of Pupils was 128. The entries for the present Session up to this date are 89: the amount of fees is 2035*l.* 5*s.* Notice has been received of the following legacies:—From Mr. Robert Cullen of Maldon, in Essex, 500*l.*, payable on the falling in of three annuities; from Mr. Edward Turner, late of Huntley Street, 200*l.*; from Mr. Henry Wheeler, late of Chester Terrace,

Regent's Park, 100*l.*; from Mr. Tanner, late of Hampden Street, Somers Town, 45*l.* Other matter relating to the Hospital will be found at page 8 under the head "Discharge of Mortgage".

PROFESSORSHIPS.

The Professorship of Midwifery, which at the period of the last Annual Meeting was vacant, was filled up at the end of the Session by the appointment of Dr. E. W. Murphy to that Chair.

Preparatory to the opening of the present Session, an important change was made in the arrangements for instructing the Classes of Latin and Greek in the College, and for conducting the Junior School. Professor Key, by his own desire, was relieved from the duties of the Professorship of Latin, and having engaged to devote himself exclusively (with an exception noticed below) to the Junior School, received the appointment of sole Head Master in that department. He has the assistance of Professor Malden for the instruction of the Highest Greek Class.

It is expected by the Council and Mr. Malden that the Greek Class of the College will derive advantage from this arrangement, since the Professor will be at liberty to bestow more time on the studies connected with the discharge of the duties of that Chair. In filling up the vacancy in the Professorship of Latin, the Council availed themselves of an opportunity of procuring the services of Mr. George Long, who was formerly Professor of Greek in the College. To accomplish this, the Council consented to endow the Chair with an annual payment of 150*l.*, to commence when Mr. Long shall have completed his labours for a work in which he is now engaged as editor. At the same time a new Professorship, that of Comparative Grammar, was instituted, and Mr. Key was appointed to the Chair, the duties of which will be discharged by his occasionally giving a short Course of Lectures: the fees payable for admission to this Class will belong to the College.

The new arrangements with Mr. Malden and Mr. Key will occasion a diminution of the income which the College derives from the Junior School until they shall have had the effect which the Council anticipate from them,—of increasing considerably the number of Pupils. On the supposition that the numbers remain the same as heretofore, the disadvantage to the College will be about 200*l.* per annum: to meet this sacrifice and that to be made for the endowment of the Latin Class, the Council propose to avail themselves of the Annual Income which will accrue from bequests as yet unappropriated. They cannot doubt that the employment of a portion of the Interest of the Endowment Fund in improving the means of conducting the Junior School, and in securing efficient Professors for Classes of essential importance, will be considered judicious, the principle that the recompense of Professors shall depend mainly on the entries of Students to their Courses of Lectures being still adhered to.

In consequence of Mr. Potter's having accepted the appointment of Professor of Mathematics in King's College, Toronto, a College recently instituted under the auspices of the local government of Canada, the Professorship of Natural Philosophy and Astronomy will again become vacant at the end of the present Session. Professor Kelland has been accepted by the Council as Mr. Potter's substitute, to complete the Courses of Lectures to his Classes after Easter, when he is under engagement to depart for his new station;

and the accustomed measures for making a permanent appointment to the Chair will be adopted.

STUDENTS.

The Flaherty Scholarship in Classics, which properly belonged to the year 1840–41, but which was not then awarded, was obtained in October last by Mr. Bunnell Lewis. The Mathematical Scholarship for 1841–42 was not awarded, the Examiners not having found sufficient merit in the papers of any of the Candidates: it remains open, therefore, and, with the next Scholarship in Classics, will be the object of competition in January 1844, the time of Examination having been altered by the Council from October to January.

The distinctions gained by Students of this College in the Examinations at the University in the year 1842, were as follows:—

By Mr. Richard Quain, on taking the Degree of Doctor of Medicine, a Certificate of Special Proficiency and a Gold Medal for his Commentary on a Case in Medicine, and a Gold Medal for his Examination in Medicine; by Mr. William Shaen, on taking his Degree of M.A. in Branch III., that of Logic, and the Moral, Mental and Political Sciences, the Gold Medal; by Mr. Charles James Foster, on being admitted to the Degree of Bachelor of Laws for his Examination in Jurisprudence, the University Law Scholarship; by Mr. Isaac Todhunter, on taking his Degree of B.A., the University Scholarship in Mathematics and Natural Philosophy; by Mr. Alfred Baring Garrod, on graduating as B.M., the Gold Medal for his examination in the subject of Medicine; and, on the First Examination for the Bachelorship of Medicine, by Mr. Robert Dawson Harling, the Exhibition and a Gold Medal in Anatomy and Physiology; and by Mr. William Thomas Edwards, one Gold Medal for the same subject, and another for Materia Medica and Pharmaceutical Chemistry. The rewards conferred by the University in the course of the year were as follows:—Two Certificates of Special Proficiency, three Scholarships, four Exhibitions, fourteen Gold Medals, and one Book Prize: of these, one Certificate of Special Proficiency, two Scholarships, one Exhibition, and seven Gold Medals, were obtained by Students of this College.

ASSISTANT SURGEONCY.

The Council perform a grateful duty in announcing that one of the members of the corporate body of the College, Mr. Martin Smith, a Director of the East India Company, has proposed to place at the disposal of the Council, as an object of competition for the Students of the Medical Faculty, his nomination in the year 1844 to an Assistant Surgeoncy in the Company's Service. The Council have determined that the Examination shall take place in the first week of July of next year; and, assisted by a Committee of the Senate, have made regulations for the competition.

LIBRARY AND MUSEUMS.

Among the additions to the Library and Museums since the last General Meeting, are the following:—To the Library, a set of works, above a hundred in number, printed at the government press at Cairo, and presented to the College by Lord Brougham, who had received them from the Pasha of Egypt. They relate to various branches of the arts and sciences, including surgery, anatomy, medicine, &c., and to letters.

A small collection of Latin and Greek classical works, of most approved modern editions, has also been added to the Library, having been purchased by the Council with the produce of the legacy of 25*l.*, left to the College expressly for the Library by the Rev. P. S. H. Payne, late Fellow of Balliol College, Oxford.

A useful acquisition for the Medical Museums of the College has been made by the purchase for sixty guineas of a large portion, consisting of about 600 specimens, of the extensive museum of surgical preparations belonging to Professor Liston, to whom the College is indebted for the handsome donation of his very interesting and valuable collection of urinary calculi.

The Council beg to communicate to the Meeting that George Bellas Greenough, Esq., one of the members of the Council, having made an offer of presenting to the College his extensive and well-known geological collection, the Council, after maturely considering the state of the finances of the College, found that the means did not exist either of providing an adequate salary for the curator of such a museum, or meeting the great expenses which the suitable reception and continued possession and maintenance of it would entail upon the College, and, under these circumstances, they with great regret declined Mr. Greenough's generous offer.

DISCHARGE OF MORTGAGE.

The Council have lately had the satisfaction of releasing the real property of the College from the Mortgage Debt of 6500*l.*; 4000*l.* of which was a debt of the College itself, and 2500*l.* of the Hospital. For the attainment of this desirable object, the Council have employed several endowment funds of the College:—namely, 3000*l.* consols, Patriot's Donation Fund; 998*l.* 15*s.*, $3\frac{1}{2}$ per cent. reduced, in which Mr. Longridge's legacy stood invested; and 147*l.* 14*s.* 3*d.* new $3\frac{1}{2}$ per cents., the Small Legacy Fund; and they have directed that the sums produced by the sale of those stocks shall be considered a charge on the College property, until the means of replacing the Stocks themselves shall be in their power; and separate accounts of them as endowments have been opened. In the meantime a sum corresponding with the amount of the dividends will be annually applied to the purposes to which the income of the respective funds has been appropriated. The difference between the rate of interest paid on the Mortgage Debt and that received by the College and Hospital for their invested funds is such, that there will be a saving by this arrangement of 50*l.* a-year out of 180*l.* to the College, and 62*l.* 10*s.* a-year out of 112*l.* to the Hospital. The sum necessary for paying off the portion of the Mortgage Debt which had been contracted for the purposes of the Hospital was furnished by the Committee of that establishment, partly from an accumulated surplus fund of donations referred to in the last year's Report, and partly from the proceeds of the collection made at the Public Dinner held in June last, at which the subscriptions amounted to 1120*l.*

The discharge of the debt of the Hospital, although it would exhaust the entire reserved funds, was determined on with less hesitation, in consequence of the handsome proposal of its Treasurer to advance such a sum as may be requisite for current exigencies, and he insists that the advance, if made, shall be free from interest. It will probably be found necessary before the expiration of the year

for the Hospital Committee to avail themselves of Sir Isaac Goldsmid's considerate offer to the extent of 500*l.* or 1000*l.*, which they will be in a condition to repay on the receipt of a corresponding portion of the legacy of the late Mr. Brundrett. As yet, in consequence of the nature of Mr. Brundrett's property, no payment has been made to the College or Hospital on account of his bequest, nor, from the same cause, has any definitive settlement been come to as to the amount which will be receivable.

THE VICE-PRESIDENTSHIP.

The Council have experienced much regret at receiving from the Duke of Somerset the announcement of his wish to withdraw from the Vice-Presidentship of the College, in consequence of inability to bestow on the duties of the office the attention which they seemed to him to require. It is gratifying to the Council that the intimation of His Grace's desire was accompanied by an assurance that he retired with reluctance from the service of the College, and that he had derived satisfaction from his connexion with its authorities. The Members of the College will not fail to concur in the high sense which the Council entertain of the obligation under which the College lies to the Duke of Somerset, both on account of his munificent contribution to its funds, and of the constant assiduity with which for several years he attended to the business of the College as a Member of the Council and of the Committee of Management, and as President of the Senate.

The Council have the satisfaction of proposing to the Members of the College for their new Vice-President, a nobleman distinguished for his exertions in the cause of education both at home and abroad, and who, from the first formation of the College until the time of his being appointed to important public stations, took a very lively interest in its success, and rendered it most essential personal service. They have much pleasure in announcing that the Earl of Auckland has most readily consented to be put in nomination, and has given reason for expecting a renewal of the sedulous attention to the affairs of the College which distinguished his former connection with it as a Member of the Council.

THE BYE-LAWS.

The Council advert with satisfaction to the almost unanimous assent with which the new code of Bye-Laws, proposed by them at the Special General Meeting in May last, was received and passed by the Members. The important new provision, according to which Students of the College, who have graduated with honours at the University of London, may be admitted to the privileges of Proprietors for life, under the denomination of "Fellows of the College," has not yet been actually carried into effect, but three shares have been placed at the disposal of the Council for that purpose, one by each of the following gentlemen, viz. Sir Isaac Lyon Goldsmid, Mr. David Salomons, and Mr. Warburton, and an early opportunity will be taken by the Council for selecting Graduates on whom to confer this distinction.

CHARLES C. ATKINSON,
Secretary to the Council.
